The above information is correct and I acknowledge that my student is to utilize the bus stop assigned to them this current school year regardless of previous year's assigned stop. This is due to RUSD safety and security policy as well as load counts. This also confirms that I understand the bus rules will be enforced with appropriate measures and that the driver's instructions are to be followed by my student rider. Your student's safety is our number one priority and the rules must be followed to insure your student's safety. We ask for your help in enforcing the rules. Your signature acknowledges understanding and cooperation with RUSD bus rules.
