Credit/grade recovery courses will be available to students who previously received an F/D in the same subject. Courses will be taught through a teacher facilitated online program, with the exception of PE and ELD which will be teacher instructed. Integrated Math I and Integrated Math II students will have a choice between the two programs.

The maximum number of credits a student may earn is ten (10), 5 per semester. The courses listed below are available based on classroom capacity/staffing.

I give permission for my student to attend Summer School 2020. I understand that failure to attend the first day of class will result in my child being dropped from the class. I also understand that my child may only miss a maximum of 6 hours per semester, regardless of the reason. Each tardy of 1 minute to 59 minutes = 1 hour of absence.

I also understand that the behavioral expectations required during the traditional academic year remain in effect during summer school and students who do not meet those expectations will also be dropped from the program.
