

OPT OUT PROCEDURE

Date:

To: School Administrator

Our family has circumstances that would create a hardship for our student to bring a school issued computer to and from home; therefore, we will be opting out of receiving a chromebook. By opting out, we are agreeing to the following:

-Our student has access to a computer at home and will have access to the computer for all necessary school work.

-Our computer has the following minimum specs:

Chromebook- 79 or higher

Laptop- Windows 10 1803 or higher

Desktop- Windows 10 1803 or higher

Ipad- iOS 11 or higher

Mac- 10.13 or higher

-We understand that by using a personal computer at home, it may not contain all of the internet safeguards as a district-issued chromebook.

-We understand that all rules about Acceptable Use and Internet Safety still apply, even on a personal computing device.

-We will notify our site administrator if we change our mind and would like to check out a school computer.

We understand that students who do not have a district-issued chromebook will need to check one out in the morning, and check it back in at the end of the day before they go home. This will need to be done on a daily basis. We also understand that there will not be a spare computer for students to use in each of their classrooms.
