

Lab Absence Interview Form

Lab Name: _____ Lab Date: _____

Interview the other members of your lab group who were present for the lab activity and have them orally answer the questions listed below. Take notes while discussing the lab. Copy their data into your lab notebook. Please have your interviewees provide their names and signatures in the table below.

Print Name	Signature

Complete the lab on your own (no copying other portions). Answer the following questions in your own words based on your interviews. Staple this sheet to the front of your lab.

1. What was the main idea that this lab activity was trying to demonstrate?
2. How did the lab activity demonstrate this idea (i.e., what did people do to find out the main idea)?
3. How does the information from questions 1 and 2 relate to what we are currently studying?
4. What errors occurred in the course of the lab that affected the quality of the data collected?
