What does my estimate mean?

Your estimate shows the average dentist fee in your area. You can use this amount to figure out your share based on your plan's benefits.

1.	You get an estimate for crowns in your area. That's how much your dentist may charge, but it doesn't mean you'll have to pay the whole amount!	\$1,240 to \$1,438
2.	You check your benefits and see that crowns are covered at 60%. Since you plan on visiting an in-network dentist, you can count on paying no more than the remaining 40% of the bill. ¹	x 40%
3.	You multiply the estimate by 40%. That leaves your expected bill between \$496 and \$575.20.	\$496 to \$575.20

¹ Your share may be higher if you have reached any applicable maximums or have not met your deductible.
