They also recognized Heather Florida, who is the outgoing PTA President for all her hard work and dedication over the past year as President. Congratulations to Heather.
7. Expressed special thanks to RTA for inviting him and Sabine to the retirement dinner – it was so nice to hear every retiree come up and tell their story, to catch up with colleagues there, it was good to see Sam Love, and hear stories from Donna St. George and Mrs. Soto.

Noted the District was proud to participate in the Black Graduation Block Party that was held at San Bernardino Valley College on May 15, noting a special thanks to Mr. Curran, teacher at Citrus Valley High School, who volunteered to chaperone the students on the bus. There were fourteen students who participated and received sashes and two students received college scholarships. It was a great event and happy that we could participate. 9. Congratulated Kimmy Moore in the Instructional Technology Department on her recognition as one of San Bernardino County's Classified Employee of the Year for the entire San Bernardino County. We will be asking Kimmy to come to the June meeting where she can be recognized.

10. In conclusion shared what a *heck* of a year 20-21 has been. This is the last Board meeting during the School Year Calendar. Shared he wanted to take a little journey through the year which started with the Governor declaring distance learning in July after the District had spent hours and hours preparing safety plans for possible in-person or distance learning. We had distance learning training for teachers in the summer of 2020 and then again in winter and during spring break. We had the amazing distribution of over 16,000 devices by the Technology Team and internet hotspots and the side door being open for parents who needed assistance throughout the year. There was the food distribution by Betty Crocker and her team in Child Nutrition Services, providing the important meals for the students. Maintenance and Operations, Purchasing, the Warehouse all doing their part in getting the PPE items ordered, out to sites and stored. All the beautification projects done by the Maintenance and Operations teams. All the extra packets prepared and shipped out from the Reprographics Department so teachers could help support their students. All the hard work in Payroll ensuring that employees were paid and that the five percent compensation was processed and paid to employees in a timely manner. All the teachers who put in all the hard work and effort in Distance Learning and then to switch to in-person learning and then some who did both at some point, and secondary teachers who stepped up and decided they could do simultaneous teaching for their students. So much incredible work that has been done over the past year and he doesn't want anyone to forget.

Also, thanked RTA and RESPA partners and Human Resources for bargaining throughout the year as programs, mandates and climate changes happened – they were there on weekends and holidays to get things done.

Finally, now to high school graduations where we will have two events so that we can be safe and still enjoy the accolades that high school students receive at this time of year. The entire year has been a valiant and honorable effort that all our employees have put forth during this pandemic while navigating through Distance and In-Person Learning.

Lastly, kudos to the Board for their patience under pressure throughout the year as they were bombarded with requests and concerns and still kept their focus on students. Job well done by everyone!!
