

SCREENRX

Maximizing member adherence

26% of hospital readmissions alone are due to medication-related issues with ~24% being nonadherence.

ScreenRx® applies behavioral science, clinical specialization, and actionable data to help your members make better healthcare decisions in their medication adherence, even before nonadherence becomes a significant issue.

 **EARLY DETECTION**

Utilizes proprietary predictive models to identify patients at risk

ScreenRx Book of Business, 2018

 **PATIENT ENGAGEMENT**

Supports patients the way they want it

 **TAILORED SOLUTIONS**

Addresses patient-specific behavioral, clinical and cost barriers

\$221M

TOTAL HEALTHCARE SAVINGS

- **1.79M** patient outreaches
- **33%** gap closure rate
- **71.73M** incremental days adherence

\$105,000

PROJECTED SAVINGS FOR YOUR PLAN

Leveraging big data to proactively identify adherence gaps

ScreenRx considers up to 300 factors that influence behavior, including

- Age
- Gender
- Education
- Income
- Marital status
- Occupation
- Employment status
- Region
- State
- Metro area
- ZIP Code

<Date>

Dear <First Name> <Last Name>,

At Express Scripts, we know how important it is for you to take <drug name> on time to treat your condition and feel your best.

If you're like many people, you may sometimes miss a dose. This concerns us, because studies show that people who don't take their medication regularly are more likely to develop health problems. We don't want that to happen to you, especially when it's easy to prevent.

Are you out of medication now? Please get a refill right away. And be sure to refill your medication on time so you always have what you need.

You can also call us toll free at <1.XXX.XXX.XXXX> to get some ideas which will help you take your medication as prescribed.

Sincerely,

Express Scripts Clinical Committee

October 2020

Dear Dr. PUBLIC:

At the request of your patients' plan sponsors, Express Scripts manages your patients' pharmacy benefit and has enclosed prescription claims records for the patients listed. These records include *patient-specific* information on the use of medications and may highlight items relating to *safety and efficacy*.

Please review the enclosed to determine if any changes in therapy are warranted. These items provide relevant information to which you may not have ready access, including prescriptions written by other prescribers as well as the date filled and dispensing pharmacy.

Express Scripts understands that the information may not be applicable to every patient's therapy and therefore presents it as informational only. We hope it supports your patients' use of the safe and effective medications they need to stay healthy at a cost that's most affordable. If you have any questions, please call us toll-free at **800.988.2237**, between 9:00 A.M. and 5:30 P.M. Eastern, Monday through Friday.

Sincerely,

Express Scripts Clinical Team
